

# HOMework GRID

This half term will be asking ‘What is so special about Chorley?’ We will be looking at Chorley as a town, learning about mapping and making our own model street. Below there are 6 different activities linked to our topic or other subjects we will be learning about that can be completed during the coming half term. The ones marked with a ★ **must** be completed but all the others are a free choice as long as 3 out of the 6 are done before 3rd February. Please don’t feel as though they need to all be done in one week, they can be handed in as and when you have time. Make sure you complete your work to a good standard as scruffy work will not get the full amount of house points. Extra house points are given for extra effort which all adds up to help the winning team at the end of the year enjoy a special treat. If you have any questions about the activities please do not hesitate to ask.

<p>Use the attached sheet to have a go at some multiplication questions. Use the methods I have shown you on the sheet to work them out.</p> <p>5hp</p> <p style="text-align: right;">★</p>	<p>Write a letter trying to persuade Mrs Blackledge that we should have an extra afternoon playtime. Think about what we have learnt about writing persuasive letters. You can use the attached sheet to help plan it out.</p> <p>5hp</p> <p style="text-align: right;">★</p>	<p>Design your own dream home. How many rooms would it have? Draw a bird’s eye view picture of each floor showing the rooms and what they are for. Think carefully about it and don’t forget the important rooms like bathrooms and kitchens (it’s not all about mega bedrooms, swimming pools or playrooms).</p> <p>3hp</p>
<p>Create your own map of the area around your home. Try to use real ordinance survey symbols to show where homes, schools, churches and other items are.</p> <p>3hp</p>	<p><b>THE QUICK BROWN FOX JUMPS OVER THE LAZY DOG</b> is a famous sentence that has every letter of the alphabet in it (check if you don’t believe me). Have a go at making up your own sentence using every letter of the alphabet. It can be as silly as you want but it must still make sense.</p> <p>3hp</p>	<p>Complete the skeleton sheet attached. Use information books or the internet to help you.</p> <p>5hp</p>
